

Image edit brief & review checklist

Define one change. Protect the details. Check the result.

Fill in a PDF app that supports forms, or print. Free to download; no account needed.

01 Define the job

Intended use and audience

Destination, dimensions and format

Source filename / version

Source permission or license

Exactly one change for the first attempt

Details that must stay unchanged

Available allowance and cost shown before submitting

02 Write the edit instruction

Change [one detail]. Preserve [shape, placement, colors and relevant text].

Example to adapt for your own photo

Replace the cluttered background with light gray. Keep the cup's shape, blue glaze and handle position. Add no lettering or decorations.

An example instruction, not a generated result or a guarantee of accuracy.

A blank planning worksheet from Brainbaby. Image editing uses the applicable credit allowance.

Review & handoff

Compare the output with the untouched source at full size.

03 Before submitting

- ☐ The attached thumbnail is the intended source.
- ☐ The file meets the uploader's current rules.
- ☐ The first requested change is specific.
- ☐ Required details are listed in the brief.
- ☐ I checked the displayed cost and remaining allowance.
- ☐ No unnecessary private information is included.

04 Review the result

- ☐ Required shape and proportions match the source.
- ☐ Edges, handles, reflections and shadows are plausible.
- ☐ Colors and material details remain accurate.
- ☐ I compared every visible word and number with the source.
- ☐ No product property, logo or endorsement was invented.
- ☐ The file opens and fits the destination requirements.

Use manual editing for exact lettering or pixel-level changes. Keep the original, brief and chosen output together.

05 Record a revision and handoff

Observed problem

One requested correction / manual edit

Source and output versions reviewed

Remaining limitations / handoff notes
